
Product Certification 4.3.15

Release Notes for Pharmaceutical Content

GS1 Canada is continually enhancing Product Certification based on community business requirements, Global Standards Alignment and feedback from our users.

With this release:

- Product Certification Reviewers and Approvers will receive monthly email reminders containing a list of all trade items that are pending their action to finish the certification process. The first reminder will be sent September 1.
- The certification progress bar now advances to 100%, allowing you to change product status to Certified.
