# Content Capture Service Request 3.0

## Release Notes

GS1 Canada is continually enhancing our content capture services based on community business requirements, global standards alignment and feedback from our users.

This release includes the following revisions:

- Added service request categories to support business requirements for:
  - Retail and Foodservice
  - Healthcare Pharmacy
  - Cannabis
- Improved layout and process for adding multiple products through a spreadsheet file.
- Improved search criteria for better tracking and reporting. For example, you can search for product by scheduled week or by item GTIN, and you can export the filtered list to Excel.
- Cosmetic enhancements for inclusive subscriber experience.
