# New ProSYNC v 1.1

## Release Notes

As part of our ongoing efforts to improve our tools and services, we have implemented the following enhancements to make it easier for you to manage your product data:

- **GTIN Compliance Report**  
Identify data discrepancies based on the latest trading partner requirements, with visibility to the status of your overall product catalogue.
- **Image Gallery**  
Easily view different types and versions of product content and images captured by GS1 Canada's Product Image and Data Capture service.
