
ProSYNC 2.3.14

Release Notes

GS1 Canada is continually enhancing ProSYNC based on community business requirements, global standards alignment and feedback from our users.

This release introduces the following:

- The new Trading Partner Publication Report enables you to view publication status for products published to specific partners.
To run the report, select one or more trading partners and download the report.
- Product images are enabled in Item Centre when you publish from ProSYNC.
With fully enabled image publication, trading partners can quickly and accurately identify the right product.
- For Cannabis products, code values are now specified for regulated Net Content Unit of Measurement (UOM) and Size UOM.
